Component

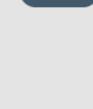

Guideline

- Aim to meet WCAG 2.1 level AA
- Text must have a contrast ratio of at least 4.5:1 against its background.
- Do not rely on color alone to convey information
- Evoke emotion using fonts
- Buttons and clickable areas should be at least 44px x 44px for desktop, may vary when it is responsive
- Maintain a minimum spacing of 16px between interactive elements.
- Ensure adequate white space for a clean, uncluttered layout.
- Maintain a consistent layout across all pages
- Use a grid system
- Highlight key information using size, color, and placement.
- Use a maximum of 2-3 font families for simplicity.
- Avoid long lines of text; keep line lengths between 50–75 characters
- Use a primary color for branding, a secondary color for accents, and 1-2 neutral colors for backgrounds.
- Use bold, contrasting colors for buttons to stand out.

Welcome! I am Zikra
Abdusemed

A Software Engineering student at Addis Ababa Institute of Technology. This website is dedicated to sharing insights into both my personal and professional journey.

Here is an overview of the website.

Home

This will give an introduction of what the website is going to cover.

This page will cover about my background and childhood.

Educational Background

This page will give a brief overview of the schools that I have attended through the years.

Achievements

This page will be containing certification from different accomplishments.

Blog

This page will introduce my hobbies and interests providing images and videos.

My Portfolio Website

Bio

I was born and raised in the walled city of Harar. This city is known to be rich in culture, history, and historical sites, including ancient mosques, markets, and unique architectural designs. Sometimes it is referred to as "The Living Museum."

This city is also known for the diversity of cultures and the beauty that comes along with living in harmony. Harar has earned its reputation as a place where people from different backgrounds come together, fostering a spirit of inclusivity and unity, giving the city another nickname: "city of love."

Educational Background

2001
Al-Habesh
Academy

This school had a strong academic foundation and it was the only school in the city that taught French as a distinct subject.

[Email](#)

2002-2006
School of
Future
Generation

What makes this school different is that it followed an international curriculum from Macmillan Academy. Also this school allowed skipping grades for special students which I did. [Email](#)

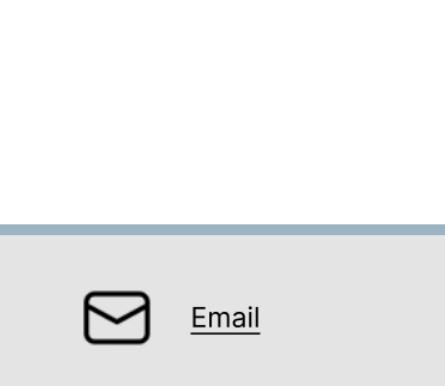

2007
Andarge W/
Georgis
Memorial
School

This school also has international curriculum in addition to Ethiopian curriculum. [Email](#)

2008-2010
Zoom In
Academy

A school established by teachers who had 10+ years of teaching experience. [Email](#)

2015-Present
AAU

I am currently pursuing my bachelor's degree at AAU [Email](#)

Blog

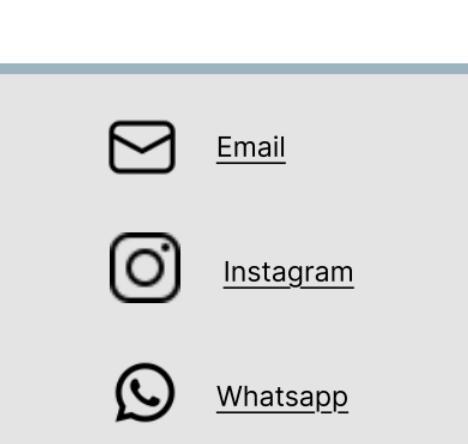

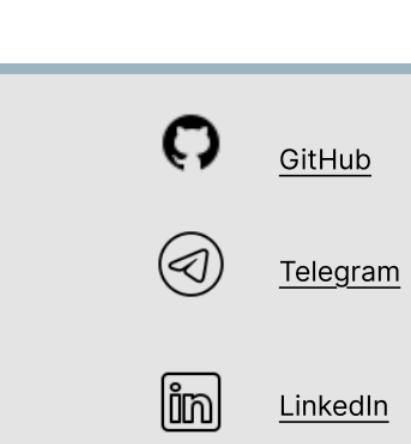

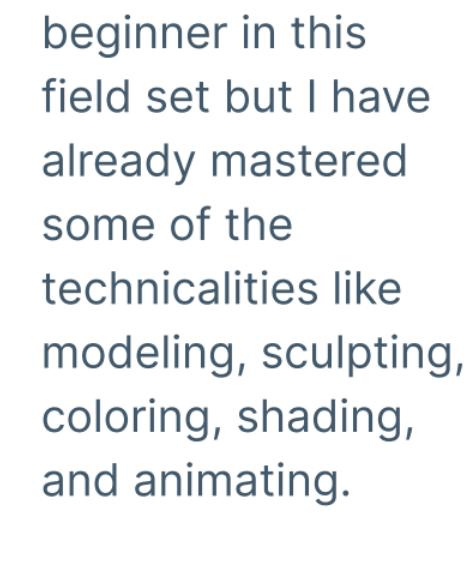

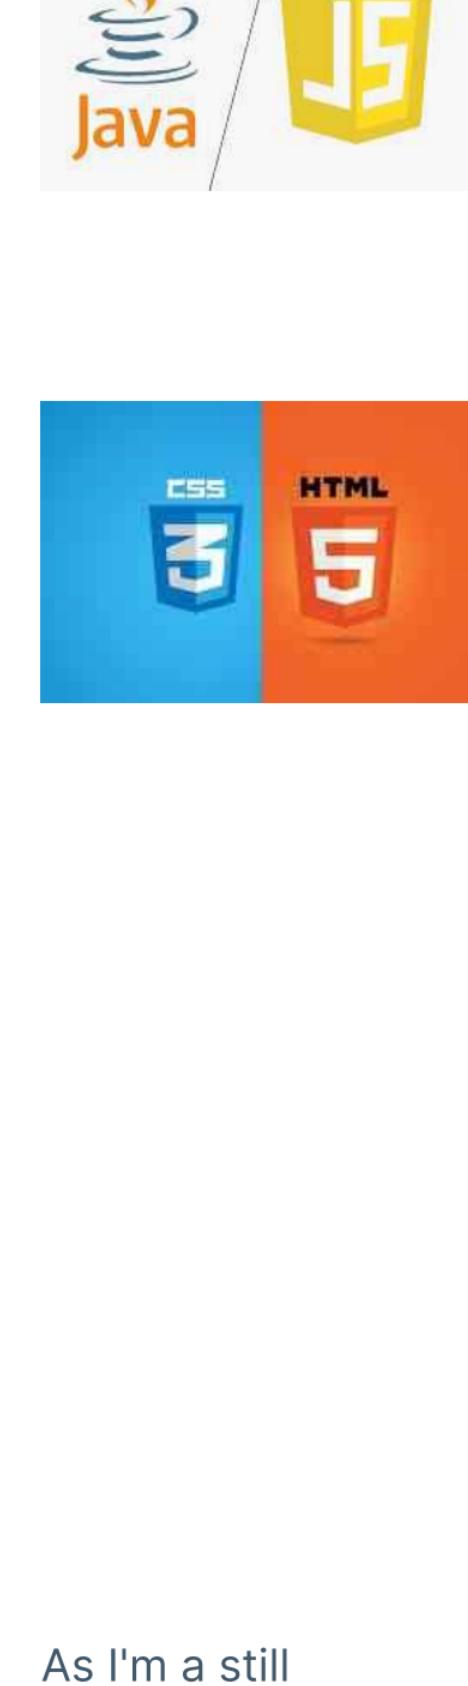

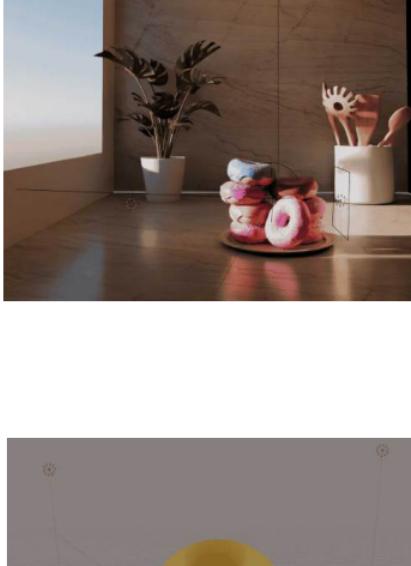

Hobbies

I love capturing and preserving moments through my lenses either video or just a picture. In addition to that I also love documenting those in videos as it gives me the opportunity to tell a story by blending visuals, sounds, and effects. Together, they let me express myself, relieve memories, and share unique perspective with others.

Baking and Making desserts

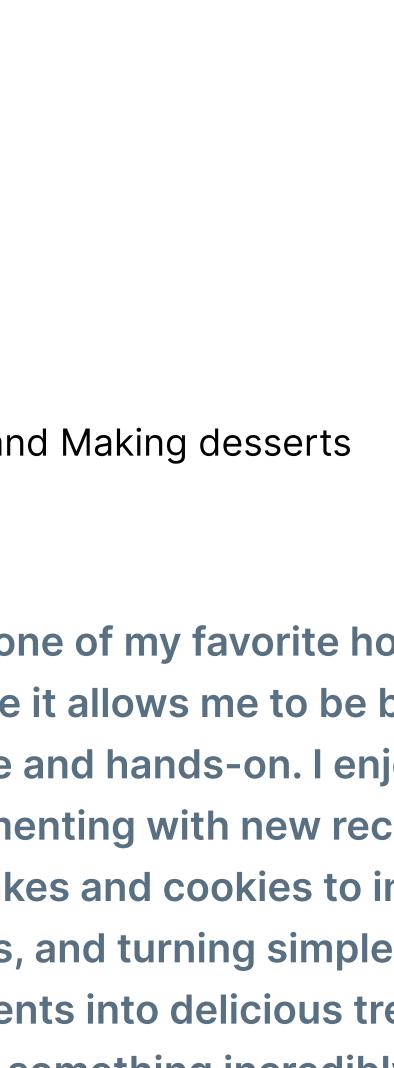

This is one of my favorite hobbies because it allows me to be both creative and hands-on. I enjoy experimenting with new recipes, from cakes and cookies to intricate pastries, and turning simple ingredients into delicious treats. There's something incredibly satisfying about the process, from mixing and measuring to decorating the final product. Baking not only brings me joy but also lets me share sweet moments with family and friends.

There's something incredibly satisfying about the process, from mixing and measuring to decorating the final product. Baking not only brings me joy but also lets me share sweet moments with family and friends.

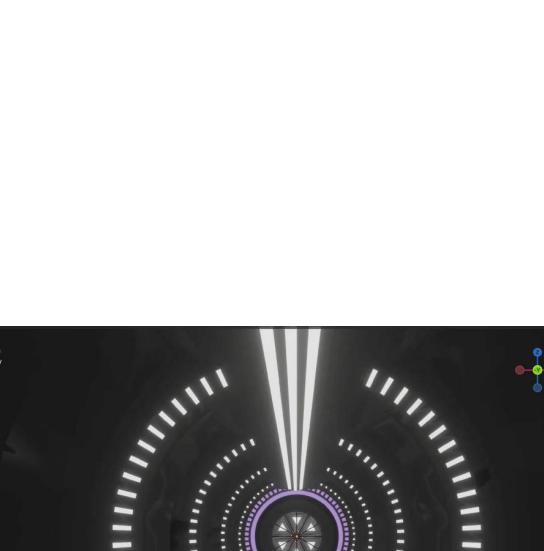

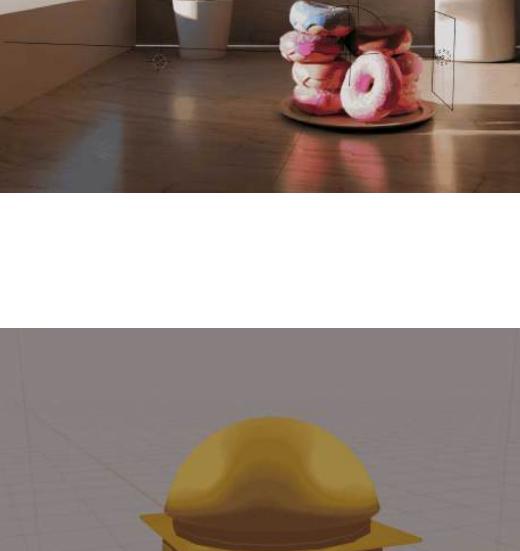

Art and Crocheting

Both cartoon sketch and digital art is a passion of mine that allows me to express creativity in countless ways.

As for crocheting, it is both relaxing and rewarding as I watch each stitch come together to form something tangible.

Skill Set

Programming

As a software engineering student I can develop websites and have the following programming skills:

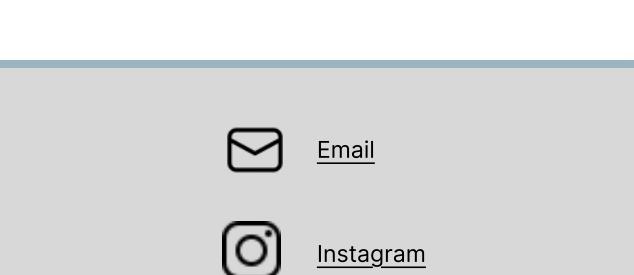

1. Python

2. Java

3. HTML

4. CSS

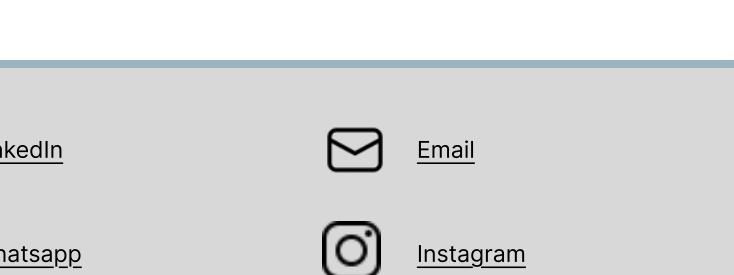

5. JS

Blender

As I'm a still beginner in this field set but I have already mastered some of the technicalities like modeling, sculpting, coloring, shading, and animating.
